

### **Optional Anonymised Microbiome Data Usage Consent Agreement**

By choosing this option you explicitly consent to allowing Biomine Health Ltd and Biomine Health Proprietary Limited (collectively, “**Biomine**”) to utilise your fully anonymised microbiome data (derived from your submitted stool sample) and associated anonymised metadata (such as age, dietary habits, lifestyle, and symptoms) for the following purposes:

- Further developing and refining our analytical algorithms and personalised wellness recommendations.
- Conducting research and development aimed at improving our products and services, including advancements in gut microbiome-based lifestyle recommendations.
- Supporting research into the gut microbiome's role in healthy ageing, cognitive health, and related wellness fields.
- Publishing anonymised, aggregated research findings in scientific journals, conferences, or other scholarly platforms.

### **Data Privacy and Anonymisation:**

- All data utilised will be entirely anonymised and aggregated, ensuring no personally identifiable information (including your name, email address, or contact details) can be linked to the data used for research.
- Your consent is entirely voluntary and does not affect your ability to use our core services.
- You may withdraw this consent at any time by contacting us at [support@biominehealth.com](mailto:support@biominehealth.com). Upon withdrawal, your anonymised data will not be included in any future research, although previously anonymised aggregated data already included in analyses or publications may remain in use.

### **Governing Terms:**

This consent is provided subject to and governed by our Terms & Conditions and Privacy Policy, which set out the broader legal framework applicable to your relationship with Biomine, including your data subject rights, our processing practices, and dispute resolution provisions. By providing this consent, you confirm that you have read, understood, and agreed to be bound by those documents.
